AUCTION LOT VIEWING
AVAILABLE ONLINE AT MONEY.ORG

CATALOGER: SAM GELBERD
THE AMERICAN NUMISMATIC ASSOCIATION WANTS YOU
to experience all the fun and knowledge that coin collecting can bring. In
addition to the annual ANA Young Numismatist (YN) Online Auction,
THE FOLLOWING PROGRAMS ARE OFFERED TO YOUNG COLLECTORS:

ANA SUMMER SEMINAR brings collectors of all ages and experience to-
gether each summer to learn about numismatics and share their knowledge. Seminars are in
Colorado Springs on the Colorado College campus, adjacent to ANA Headquarters. A course
catalog will be available in early 2023. Students take classes of their choice, attend field trips
to explore the local area and participate in special activities while living with fellow YN’s, in-
terns, and mentors. Full and partial scholarships (tuition, room & board, airfare) are available
to qualified ANA-member Young Numismatists. Applications are available at money.org, or by
contacting the ANA Education Department at 719-482-9865.

ANA YN TREASURE TRIVIA GAME is another exciting event held at the
ANA National Money Show® and the World’s Fair of Money®. Participants follow a treasure
map of the convention and bourse floors to find answers to numismatic trivia questions and
collect treasures along the way.

YOUNG COLLECTORS CORNER is a program held at ANA shows for
children ages 5-17 that explains the origins and history of money in all of its forms, as well as
the foundations of numismatics. Attendance is strongly encouraged for children just starting
out in the hobby, and Scouts can earn their Coin Collecting Merit Badge upon successful
completion of this fun, interactive workshop.

THE DAVID R. CERVIN ANCIENT COIN PROJECT allows YN’s
to earn a variety of quality ancient coins by presenting lectures and exhibits, writing articles
and completing other hobby-related projects. Go to the “Young Numismatists” page at www.
money.org for more information.

THE DOUGLAS F. BIRD EARLY AMERICAN COPPER
COIN PROJECT outlines another enjoyable way to learn about early U.S. history
and numismatics. YN’s earn copper coins, books and numismatic supplies by writing
articles or school reports, giving presentations for school or Scouts, exhibiting, completing
correspondence or Summer Seminar courses and completing other projects.

THE DOLLAR PROJECT is designed for YN’s between the ages of 8-12. YN’s
will complete hands-on and website activities that will offer interesting prizes and prepare
them for the more rigorous Early American and Ancient Coin Projects.

YOUR NEWSLETTER is a monthly electronic newsletter written by and for
Young Numismatists. Your Newsletter is also the place to submit news, articles and quizzes
that you would like to share with fellow young numismatists. To subscribe or submit articles
for consideration please email: YourNewsletter@money.org.
• Each bidder must register no later than 11:59pm (MDT) on Thursday, September 8, 2022.

• Only YN Dollars are accepted for payment. Each bidder must submit all YN Dollars requests no later than 11:59pm (MDT) on Tuesday, August 30, 2022 to ensure they are delivered in time for the day of the auction. (You may submit YN Dollar requests after that date, but you may not receive them in time for this year’s YN Auction.)

• You will need to choose and enter an appropriate, unique screen/bidder name to be used in order to place bids on the auction lots. (Inappropriate names will be addressed with the user and disciplinary action may be taken if deemed necessary, up to and including your exclusion from the YN Auction.)

• When bidding on a lot, you must enter your screen name and bid amount. All items are recorded by lot number, along with the winning bidder and winning amount.

• The auctioneer’s hammer will fall after each lot, to signify the end of bidding for that particular lot and the sale is considered final. In the event of a tie bid, the auctioneer may at his/her discretion decide who has actually won the lot. All decisions will be made as equitably as possible to ensure the integrity of the YN Auction process.

• In the event a winning bidder cannot make good on a payment for a won lot, the ANA will contact the next highest bidder (after the auction has ended) and will offer the next highest bidder the opportunity to purchase the lot. As this next highest bidder did not anticipate purchasing the lot because it was lost to the highest bidder in real time, there is no obligation for the second highest bidder to purchase the lot in question. It will only be offered as a courtesy if the original winning bidder in real time cannot pay for it. Please do not bid on ANY lots that you can not pay for in YN Dollars.

• All winning bidders will receive their won lots in a timely manner after sufficient payment in YN Dollars has been received – all payments must be postmarked by Monday, September 26, 2022. YN Dollars are the only tender accepted for all payments.

• Note to bidders: The photos in this catalog are not to scale or actual size. It is the responsibility of each bidder to familiarize themself with the auction lots in advance of the auction day in order to bid most effectively. If deemed necessary, you may contact the auctioneer before the day of the auction with any questions you may have regarding any of the auction lots.

YN’S MAY NOT SHARE THEIR YN DOLLARS – THEY ARE NOT TRANSFERRABLE.

TERMS & CONDITIONS OF SALE

• The auctioneer’s decision shall be final and binding upon all bidders.

• All sales are strictly for “YN Dollars.” The auctioneer reserves the right to refuse to honor any bid or limit the amount of any bid, which, in his or her opinion, is not submitted in “good faith.”

• The auctioneer reserves the right to require payment in full before delivery of the merchandise to the buyer. All winning auction lots are due and payable immediately upon receipt.

• No buy or unlimited bids will be accepted.

• All raw/ungraded coins (or coins not in sets) will be shipped in plasticized/vinyl flips. It is suggested to remove your coin(s) from these flips and store them in a container suitable for long-term storage to help prevent PVC damage.

• Minimum bids will be posted for each lot. No “cut” bids will be accepted for opening bids, unless the auctioneer states otherwise.

ONLINE AUCTION TIPS

Using online auction venues can be a fun and rewarding experience for a collector looking to expand his or her coin collection. It provides a hobbyist access to thousands of items that one would otherwise never view. However, there are risks associated with purchasing coins through online auction sites. Remember, ANA YN Auctions are not a typical representation of what most coin auctions are like. They are meant to provide fun and educational experiences by easing YN’s into the process of online coin auctions by learning the subtle nuances of coin grading and descriptions. Here are a few tips that will hopefully aid in providing for a positive online buying experience.

• One must remember the classic adage, applied for online auctions, that “If an item or lot seems too good to be true, then it is most likely not legitimate.” Many individuals who think they received an unbelievable bargain through online auction venues end up getting burned.

• When using any other auction firm be sure to understand the auction rules, terms & conditions. They can vary from firm to firm, and an informed bidder will know what terms and conditions they are bounded by.

• Always read the seller’s entire auction description and terms before bidding on an item. Be sure to understand what exactly is being sold, shipping charges, return policies, and payment options. Watch for any unusual terms listed in an auction.

• Be wary of sellers claiming to know very little about coins or claiming that this was an inherited estate that they know nothing about. This is often a way for sellers to auction low quality or counterfeit coins and attempt to disclaim responsibility with ignorance. A quick check of feedback records will often indicate that the “novice” seller has been selling coins for months, or even years.

• Avoid sellers that do not accept returns or do not have a stated return policy of some sort.

• Always examine the Feedback Rating of a seller that you are interested in purchasing an item from. A buyer should avoid a seller with a low feedback rating (generally below 98 percent), or one who has a recent string of negative feedback.

• Be wary of sellers who use private auction listings, as this is often a tactic used to disguise shill bidding (where agents acting on behalf of the seller bid on an item in order to artificially increase its price).

• Avoid sellers who have private feedback. This tactic is usually employed to disguise negative feedback other buyers have left the individual. If a seller cannot share his or her feedback regarding past transaction, it would be wise to pass on their item.

• Avoid sellers with new accounts who are selling expensive coins for the first time. An expensive coin should only be purchased from a seller who has a clear track record. Also beware of sellers who will sell a large number of inexpensive “junk” items in a short period to increase their feedback. This can be a tactic used to give the veil of legitimacy.

• Always avoid auction sellers who attempt to sell numismatic items to you unsolicited away from the online venue. This is against the policy of most auction sites, and the buyer has no recourse through the auction venue should there be a transaction problem.

• Beware of new “alphabet soup” certification companies. A large number of coins are offered online as being graded by a professional grading service. In fact, they are often typical Coin World-like holders with a homemade label that contains an inaccurate grade and an acronym that represents a “self-slabbing” grader. The truth is that any hobbyist can purchase and place a label into a coin holder and call themselves a “grader.”

• Avoid sellers who are selling many raw coins or coins in 3rd tier slabs, but are quoting prices for ultra-grade coins from sources like the PCGS Price Guide. The sellers’ coins are nearly always over-graded or problem coins and are not comparable to the coins they are being compared against.
• Beware of US coins being auctioned by sellers from the Far East. Individuals in China produce large quantities of counterfeit US silver coins, particularly Bust, Seated, Trade and Morgan Dollars.

• Beware of sellers that do not provide a clear picture of a coin or provide no picture at all.

• Beware of a coin picture that does not appear like the seller took the actual photograph. A recent trend has been for unscrupulous sellers to steal a photo from a legitimate dealer, auction house, or collector and use it in an auction where they are selling an inferior coin, or no coin at all.

• Beware of sellers who attribute raw coins or graded coins that have no mention of an attribution. Be wary unless the seller is willing to guarantee the attribution & offer a reasonable return policy that provides the winning bidder time to examine and verify the attribution of the coin. This is of special interest to variety collectors of half cents, cents, half dollars, and dollars.

• Be wary of sellers who describe their photos as "stock photos," meaning that the coin the winning bidder receives will not be the coin pictured. Many times, the coins being shipped to buyers are of inferior quality compared to the stock coin used in the photo.

• Be cautious of sellers who offer unusual sales terms, such as excessive shipping and handling charges, requirements of payment forms that the buyers have no recourse with (such as cash-only sales), "as-is" sales, or single-day auctions (as this is often a way to avoid the policing efforts of online auction sites).

• Beware of signs that an online account has been hijacked. Hijacked accounts are seller accounts that have been taken over fraudulently by a different user than the account holder. Some signs that an account has been hijacked include:

  A. Seller feedback that has many RECENT negatives at a higher rate than normal for the account.
  B. A seller account that remains inactive for a long period of time, then is suddenly selling rare or expensive coins.
  C. An account that sells no coins for a long period of time, then is suddenly selling large quantities of rare and expensive coins.
  D. An account that has previously only purchased items and never sold any items, let alone coins, is now selling large quantities.

One should be advised that THESE TIPS ARE GENERAL STATEMENTS. Some perfectly honest online sellers may bring up one or two of these “red flags.” However, IF YOU ARE UNCOMFORTABLE WITH ASPECTS OF A SELLER’S ACCOUNT OR LISTINGS, THEN AVOID THAT SELLER. In general, the more “red flags” a seller raises, the greater the likelihood that the seller is a dishonest individual.

1. **1857 FLYING EAGLE 1C - VERY GOOD: $15**
The first small cent type for circulation in the USA, made of copper-nickel. Most of the original details have worn away in circulation, but there is still plenty of coin left here.

2. **1907 INDIAN HEAD 1C, IMPROPER ALLOY ERROR - CHOICE BRILLIANT UNCIRCULATED: $25**
Coinage metals are blended before they are poured into ingots and rolled into sheets. The sheet that this coin's blank was punched out of had improperly mixed metals, giving the coin a wood-grained appearance. Very nice look to this one!

3. **1924-D LINCOLN 1C - VERY GOOD DETAILS (ENVIRONMENTAL DAMAGE): $30**
Key and semi-key date coins are always in demand, and should be among the first coins a set builder buys. Despite some minor corrosion on the obverse, this is a great starter piece for anyone building a set – many older collectors still have this spot empty in their albums!

4. **1935-D LINCOLN 1C - GEM BRILLIANT UNCIRCULATED, RED: $20**
Pre-World War II cents in pristine condition are never a bad idea to add to a collection. This piece shows original mint red luster that's warmed over the years; no toning or black carbon spots. Ideal coin to add to a high grade set.

5. **1936-D LINCOLN 1C - GEM BRILLIANT UNCIRCULATED, RED BROWN: $15**
This is another pleasing Mint State Wheat cent, despite a lightly hazy appearance. The planchet also shows the slightest signs of incompleteness, which most people would never notice unless someone pointed it out.

6. **1922-D LINCOLN 1C - GOOD-6: $30**
This is always one of those coins you just hope to find in a roll of "unsearched" Wheaties. For those of you who are not quite so lucky, here's one you can purchase! The remaining details are a solid Good, but not quite strong enough for Very Good. Another great semi-key date Lincoln cent!

7. **1926-S LINCOLN 1C - GOOD/VERY GOOD: $10**
This isn't a semi-key date, but it is certainly a better, early date Wheatie. It straddles the line between Good and Very Good. A very well-traveled cent; problem free with plenty of honest wear.

8. **1940-S LINCOLN 1C - GEM BRILLIANT UNCIRCULATED, RED BROWN: $10**
Here's another pre-World War II Wheat cent with fully original mint luster; this one struck in San Francisco. There is a light fingerprint remnant behind Lincoln's head, hence the Red Brown designation.

9. **1874 SHIELD 5C - ALMOST GOOD: $10**
Shield nickels were the first nickel five-cent pieces that circulated in the U.S.A. It was a hard metal for the Mint to strike at the time, so die cracks are normally seen on them. This coin strangely does not show any of these; probably worn away in circulation.
10. **1938-S JEFFERSON 5C - GEM BRILLIANT UNCIRCULATED: $20**
From the first year of production for Jefferson Nickels, and also from the same dies as the specimens in the last three year’s auctions, comes this beauty made in San Francisco. Many die scratches are indicative of die clash remnant removal but, the strike and luster on this piece are incredible – looks like it was just minted yesterday!

11. **1944-P JEFFERSON 5C; INCOMPLETE PLANCHET ERROR - GEM BRILLIANT UNCIRCULATED: $20**
The other awesome ungraded Mint State Jefferson nickel being offered this year, is this specimen in the emergency wartime composition containing 35% silver. This coin was struck on a planchet that was almost 100% complete.

12. **1877-S LIBERTY SEATED 10C - VERY FINE DETAILS (ENVIRONMENTAL DAMAGE): $20**
Liberty Seated pieces are among the most popular U.S. Type coin designs, and were used on six different denominations! This dime still shows some nice original features, but it also has rough surfaces, especially the obverse.

13. **1914 BARBER 10C - FINE/VERY FINE: $15**
Barber coinage served as “workhorse” money during the late 19th and early 20th centuries. This coin has some damage on the rim under the date, but there are still plenty of original details remaining.

14. **1853 LIBERTY SEATED 25C, ARROWS & RAYS - VERY FINE DETAILS (LIGHTLY CLEANED): $30**
Finding problem-free 19th century type coinage is not always easy. This coin was lightly cleaned a long time ago, but still has a very attractive appearance. The reverse is starting to show signs of re-toning.

15. **1857 LIBERTY SEATED 25C - VERY FINE DETAILS (SCRATCHED): $25**
This specimen has stronger VF details than the previous listing. It has an overall wonderful look, though there are two scratches; the one on the obverse can’t help but be noticed, but the one on the reverse is a bit hidden by the letters UNI.

16. **1949 WASHINTON 25C - CHOICE BRILLIANT UNCIRCULATED+: $30**
Very clean example from the last year of the “40’s. Average satin luster, and struck by later state dies, as evidenced by a slight orange peel effect on the surfaces and hints of spiderweb-style die cracks starting in some areas. Very clean reverse.

This variety is found on scarce quarters struck in Philadelphia from 1956-64, and is listed in the Cherrypicker’s Guide to Rare Die Varieties of United States Coins. It was struck by a reverse die with features intended to be used on proof coinage, which has some slight design differences than the regular circulating versions.
This coin was cut out of an uncirculated Bicentennial 3-piece set and is 40% silver. It is still inside the Mint plastic it was issued in, though it has been separated from the half dollar and dollar. Fully original coin with a full strike and typical satiny luster for the type.

19. 1963 Franklin 50c - Brilliant Uncirculated: $25
Here’s a Franklin half dollar that shows killer luster, but lacks a full strike, so the bell lines on the reverse are not 100% present. Some hits on the cheek prevent this from gem (MS-65) quality. Still a very nice coin from the last year of the series at Philadelphia.

20. 1879-S Morgan Silver Dollar, 3rd Reverse - Choice Brilliant Uncirculated: $65
The first few years of Morgan Dollar production in San Francisco turned out many specimens with booming luster. This piece displays this usual flashiness, accompanied by a full strike. Some marks on the cheek prevent this from grading higher than Mint State-63. (Sometimes referred to as the Reverse of 1879.)

21. 1880-S Morgan Silver Dollar - Extremely Fine Details (Cleaned; Retoned): $40
This circulated piece had been cleaned by someone long ago, but it has since retoned and acquired some very cool colors, especially on the reverse. Perfect piece for fans of attractive natural rainbow toning!

22. 1881-S Morgan Silver Dollar - Brilliant Uncirculated: $55
The ’79-S offered this year has less chatter across all surfaces, but this ’81-S has slightly better original Mint luster on both sides. Again, this is typical for the early San Francisco Morgans, but if you just need one specimen for a type collection, this would suffice!
23. 1899-O MORGAN SILVER DOLLAR - CHOICE BRILLIANT UNCIRCULATED: $60
Here’s the only coin offered this year minted at the branch facility in New Orleans. Some years of “Nawlins” Morgans show horribly weak strikes, but this date is known for having some increased pressure in the coining chamber, so there is near full detail present. The luster is super nice; a solid MS-63.

24. 1920 PILGRIM TERCENTENARY COMMEMORATIVE 50C - ALMOST UNCIRCULATED DETAILS (IMPROPERLY CLEANED): $40
One of two classic commemoratives this year, and the first time we’ve been able to offer a “Pilgrim”! This one still has almost all of the original details, but it has been cleaned a bit too harshly, as evidenced by hairlines on both sides; not be confused with all of the die scratches also present.

25. 1923-S MONROE DOCTRINE CENTENNIAL COMMEMORATIVE 50C - CHOICE VERY FINE+: $35
The other classic commem being offered is a Monroe Doctrine half; also the first time we’ve been able to offer one! This one is right on the edge of VF and XF. Very eye-appealing coin for the grade, and problem free. Awesome artistic reverse design!

26. 1989-S CONGRESS BICENTENIAL COMMEM 50C - SUPERB GEM PROOF WITH FULL CAMEO: $15
A close-up of the bust of the Statue of Freedom that sits on top of the Capitol dome graces this coin’s obverse. It is not accompanied by all of the original Mint packaging, but it is still in the original capsule of issue.

27. 1992-P XXV OLYMPIAD COMMEMORATIVE 50C - SUPERB GEM UNCIRCULATED: $15
This modern commem half is also in its original Mint capsule, minus the other packaging, and has started to develop some gold and sapphire hues around the periphery, especially on the reverse. Perfect for the collector of Olympic numismatic-related memorabilia!

28. 2006 LINCOLN 1C, STRUCK OFF-CENTER - CHOICE BRILLIANT UNCIRCULATED RED: $20
Among the errors offered this year, this is the only off-center, and it actually includes the full date! It is showing some of the zinc core, exposed due to shearing of the copper plating during striking. Wonderful example of this fun type of striking error!

29. 1919-S BUFFALO 5C, REVERSE PLANCHET LAMINATION - GOOD: $15
Due to impurities in the metals used to make this coin, a lightning bolt of a fracture has shown up running diagonally across the buffalo’s body. Most of the details have worn away due to heavy use in circulation, and most of the date still shows.
30. 1927-S BUFFALO 5C, OBVERSE PLANCHET LAMINATION -
VERY GOOD: $20
This lamination is more prominent and affects a more noticeable portion of the coin than the previous listing. Part of the peeled away portion is no longer attached, and there is a small void just above the eyebrow.

Finding that missing piece would add tremendous value (and would also be nothing short of miraculous!)

31. 1962-D JEFFERSON 5C, REVERSE PLANCHET LAMINATION - ALMOST UNCIRCULATED: $10
Here’s another reverse lamination error, but this one shows a decent chunk of missing metal, going right across Monticello.

32. (NO DATE) WAFFLE-CANCELLED BLANK 25C - UNCIRCULATED: $20
This 20th century copper-nickel blank intended to be used to strike a quarter was rejected and cancelled by the Mint’s “waffler” for some reason, though it is not apparent why upon close inspection. It weighs the standard 5.67 grams and looks complete. Not really a true Mint “error” but still a very interesting item to own!

33. 1961 KANSAS STATEHOOD CENTENNIAL SO-CALLED DOLLAR; HK-586 - SUPERB GEM BRILLIANT UNCIRCULATED: $35
We rarely get to offer So-called Dollars in our auctions, and this one is made of 90% silver; contains .596 ounces actual silver weight (ASW). Read the info available on the S.C.D. website; interesting history with this piece, and a mintage of only 20,000!

34. 2004 NORTHERN MARIANA ISLANDS, FANTASY $1 - GEM PROOF, CAMEO: $25
Technically this item is a bronze medal, and from the U.S.A. It is thinly plated with silver containing a percentage of actual silver recovered from the World Trade Center building collapses on September 11, 2001. Designed by artist Dan Carr! (If you don’t have any “DC” coins in your collection, this is a great way to get one at a nice price!!)

35. 1997 6-COIN SET OF TEC ELONGATED COINS FROM THE ANA WORLD’S FAIR OF MONEY® SHOW - BRILLIANT UNCIRCULATED: $15
Show-specific numismatic items can be difficult to find unless you actually attended the show yourself. This six-coin set was rolled out by The Elongated Collectors (TEC) and was available for sale at the TEC booth. All coins are secure in sealed plastic.
36. **GOLD-PLATED NECKLACE PENDANT WITH 1906 INDIAN HEAD 1C - VERY GOOD/FINE: $10**

Here’s a jewelry piece containing an average circulated Indian Head cent. Some people like to wear expensive coins around their neck, but this lets the wearer show off an attractive historical piece without having to fear something too valuable being lost or stolen.

37. **NECKLACE BEZEL PENDANT WITH 1986-S STATUE OF LIBERTY CENTENNIAL 50C - IMPAIRED PROOF: $15**

This modern commemorative started out as a sweet proof coin, and is now an “obviously worn by someone as jewelry” proof coin and cleaned to the point where the surfaces are barely prooflike, but it’s still always a proof no matter what. This bezel can be unscrewed to fit any U.S. half dollar.

38. **NECKLACE BEZEL PENDANT WITH 1981 GIBRALTAR 1 CROWN, ROYAL WEDDING COMMEMORATIVE - GEM PROOF CAMEO: $30**

Protective plastic layers help keep this sterling silver (.925 fine) proof stay in pristine condition. The bezel is also sterling and held in place by a screw for coin removal. This is one of just 30,000 silver proof specimens minted.

39. **1941 AUSTRALIA HALF PENNY - ALMOST UNCIRCULATED: $10**

Original red luster pokes through some of the lettering, but the coin shows some slight signs of wear, some black spots, and a couple of small scratches on the neck. Definitely a better kind of coin to pull from a dealer’s junk bin with some searching.

40. **1942-D AUSTRALIA SIX PENCE - EXTREMELY FINE: $5**

During World War II the U.S. Mint struck coins for several nations. This silver (.925 fine) six pence shows evidence of circulation wear, but still has a fair amount of original luster. An average piece in this condition, and a Denver Mint product.

41. **1916 CANADA ONE CENT - EXTREMELY FINE: $5**

Here's a World War I Era coin from our neighbors in the Great White North; Canada! It shows average circulation evidence for the grade, and a small dark spot on the reverse. Otherwise, this is a very pleasing Canadian large cent.

42. **1902-LIMA JF ECUADOR ½ DECIMO - ALMOST UNCIRCULATED DETAILS (CLEANED): $10**

This little silver coin (.900 fine) has lustrous surfaces and nearly complete original details, though it was harshly cleaned at some point. Struck at the mint in Lima, Peru – the U.S. is not the only country that has made coins for other nations!

43. **1916 (P) EL SALVADOR 5 CENTAVOS - VERY FINE DETAILS (MINOR CORROSION): $5**

Here's another coin struck by the U.S. Mint, this one in Philadelphia, with a 1.5 million mintage. A relatively average world coin, but it is always fun to have anything over 100 years old in a collection!
44. 1934 FIJI SHILLING - EXTREMELY FINE: $10
Colonial pieces like this often have lower mintages than their counterparts from the mainland. This silver shilling is one of only 360 thousand minted. It has a darkened look, but that’s only because it’s totally original and has never been cleaned.

45. 1981 GREAT BRITAIN 25 NEW PENCE - GEM BRILLIANT UNCIRCULATED: $10
This is one of two 1981 Royal Wedding commemorative pieces. This one was struck for circulation in copper-nickel, and has numerous obverse die scratches. There is a light golden and blue tone, primarily on the obverse.

46. 1999 GREAT BRITAIN 5 POUNDS - GEM BRILLIANT UNCIRCULATED: $10
Here’s another crown-sized coin from Great Britain featuring Lady Diana Spencer, Princess of Wales. This is the copper-nickel version, and the surfaces are starting to become enveloped in a lightly bluish haze.

47. 1883 HAWAII QUARTER DOLLAR - VERY FINE DETAILS (FILED EDGE): $50
Charles Barber designed the scarce and popular 1883 Hawaiian coinage issues. This quarter shows some damage on the edges at the 3 o’clock and 9 o’clock positions, indicating that this was likely a former jewelry piece of some sort, and has since been (somewhat) restored.

48. 1943 (B) INDIA - BRITISH HALF RUPEE - EXTREMELY FINE/ALMOST UNCIRCULATED: $10
This .500 fine silver coin was minted in Mumbai (Bombay) as evidenced by the dot mintmark under the rose at the bottom area on the reverse. The obverse has a bit too many issues for this coin to grade much higher than XF.

49. 1942-S NETHERLANDS EAST INDIES 1/10 GULDEN - UNCIRCULATED:
$5
Here’s another little silver piece (.720 fine). It was struck in San Francisco and has an “S” mintmark. The U.S. Mint has produced numerous coins for several other countries ever since 1876. It also has a palm tree privy mark, to help distinguish it from regular Netherlands issues.

50. 1937 NEW ZEALAND SIX PENCE - EXTREMELY FINE: $5
Six pences bearing the image of King George VI debuted this year, and 1.28 million of these New Zealand versions were minted. This coin may have been very lightly cleaned a while ago, but it shows typical marks for the grade.
51. 1907 France 20 Francs - Choice Brilliant Uncirculated: $350

This year’s gold coin is a French “Rooster”. These beautiful pieces served as predecessors to modern Euro coinage, as most European nations had a similar denomination that also had an actual gold weight (AGW) of .1867, to help standardize world trade over 100 years ago. Good luck!

52. 1933 New Zealand Shilling - Very Fine Details (Cleaned): $10

Here’s another British colonial silver shilling; this one from New Zealand and the first year of the country’s coinage. It has been cleaned, but still shows most of the original and iconic design of a Māori warrior crouching on the reverse.

53. 2018 Ukraine 10 Hryven, Day of the Ukrainian Volunteer Commemorative - Gem Brilliant Uncirculated: $10

Very striking appearance to this coin, with an eagle above a flame and two crossed swords. The reverse shows the words, “Who if not me?” inside an outline of the country, including the Crimean Peninsula; land annexed by Russia a few years earlier. Not intended for circulation.

54. 1974 Canada 1C, Incomplete Planchet Error - Almost Uncirculated: $5

This is one of two world error coins offered this year. This coin shows a relatively decent planchet clip. This happens when a blanking press punches out a new blank from a sheet, in a location right next to where another blank was already punched out previously, creating this crescent-shaped appearance.
55. **1947-MO MEXICO ONE PESO, CRACKED PLANCHET ERROR - ALMOST UNCIRCULATED:** $25
   This coin shows a scarce planchet error: a crack in the metal, visible on both sides, as well as the edge in the affected area. It isn’t huge but it is significant and not always something noticed by many collectors, unless they actively look for these unusual defects.

56. **1997 VATICAN CITY 50 LIRE & 100 LIRE, 2-COIN SET - CHOICE BRILLIANT UNCIRCULATED:** $15
   Pope John Paul II is featured on these two small copper-nickel coins issued by the Vatican, sealed in a small presentation folder. Both coins have themes related to world peace – something we can all certainly use a bit more of these days!

57. **(NO DATE) U.S. AIR FORCE 1-OUNCE SILVER ROUND - PROOF:** $25
   Apparently, this was a presentation piece for someone’s father, who was probably involved with the USAF in some manner. The reverse has a personal inscription, so this probably does not resonate with most of us unless the date on it is important to you. Definitely a unique piece to add to a collection of silver bullion rounds!

58. **1907 U.S. MEDAL, THEODORE ROOSEVELT PLAQUETTE (REPLICA):** $25
   Here’s a sizeable chunk of yellow bronze featuring Theodore Roosevelt. This is a reissue of the “Hampton Roads” design, with Charles Barber responsible for the obverse, and George T. Morgan, the reverse; a rare collaborative effort!

59. **1994-S U.S. MINT PREMIER SILVER PROOF SET IN ORIGINAL GOVERNMENT PACKAGING:** $30
   This set has the same amount of coins (five) as the regular 1994 proof sets issued, except the dime, quarter, and half dollar are all 90% silver specimens, and in a much nicer presentation holder than the regular silver proof sets for that year.

60. **1999 U.S. MINT PROOF SET IN ORIGINAL GOVERNMENT PACKAGING:** $25
   If you’re going to build a set of the 50 States Quarters Program proof coins, you are going to need the five quarters from this 9-coin set. The box has some wear, but the capsules the coins are in are doing just fine.

61. **2018 U.S. MINT PROOF SET IN ORIGINAL GOVERNMENT PACKAGING:** $20
   This set is a bit newer than the last lot listed, and includes 10 pristine proof coins for your collecting pleasure. Perfect item to celebrate 2018, or to give as a gift to someone, or to just keep for your own hobby enjoyment!

62. **1996-P SMITHSONIAN INSTITUTION 150TH ANNIVERSARY COMMEMORATIVE SILVER DOLLAR - SUPERB GEM PROOF:** $30
   The mintage for this modern commemorative dollar is 129,152. Limited coins have more potential to rise in value, but it also depends upon the number of surviving specimens in the future. But if you collect for the love of the hobby, then there are no worries!

63. **2011-W SEPTEMBER 11 NATIONAL MEDAL - SUPERB GEM PROOF:** $30
   This silver medal contains one full ounce of pure silver. The mintage listed on the Certificate of Authenticity states a mintage of 2 million, though in reality the number may be closer to 109,365. Exonumia is underrated!
64. 2004-2006 JEFFERSON NICKELS & FIRST DAY COVERS
SET - 10 PIECES: $20
This lot is a box with TEN uncirculated Jefferson Nickels celebrating the Westward Journey of exploration made by Lewis & Clark over 200 years ago. Each nickel is affixed to an envelope as First Day Covers, accompanied by some very beautiful stamps related to this expedition.

65. 1909 LINCOLN 1C - ANACS MS-63 RB (OLD HOLDER): $25
Here's a nice red-brown specimen of the first date in the Lincoln cent series. A few carbon spots on the reverse do not detract from the overall quality of this fully original piece, with a fair amount of red still present (for now).

66. 1941-S LINCOLN 1C - PCGS MS-66 RD: $20
A couple of small carbon spots and a hit underneath LIBERTY likely prevented this coin from finding a home in a 67 holder, but it still has that soft, pretty "40's San Francisco luster. This specimen shows the smaller and more common mint-mark used that year.

67. 1956 LINCOLN 1C - ANACS PF-66 RED (OLD HOLDER; TONED): $20
For the collectors of proof Wheat cents, this one doesn't have cameoed devices, but toning is starting to develop a little bit on both sides, giving the coin a slightly purple look in some places. Minor pitting is seen on both sides, perhaps from lightly rusted dies.

68. 1964 LINCOLN 1C - PCGS PR-64 CAM (OLD HOLDER): $25
Here's a pretty penny with cameos on both sides. A small hazy patch in front of Lincoln’s face likely stopped this from grading higher. Great piece for collectors of older slabs, regardless of the coin inside!

69. 1997 LINCOLN 1C - PCGS MS-65 RD (OLD HOLDER): $20
Sometimes we disagree with a grading service's assessment of a coin's state of preservation. While this is usually rare, this particular coin seems to have been unfairly punished by this grade. (Keep in mind that standards for grading have some flexibility over time and this is an older style holder.)

70. 1938-D BUFFALO 5C - NGC AU-58: $30
1938 Buffalo nickels are typically found in high grade condition. This piece was likely a gem that spent a couple of days in circulation, as there are only the slightest hints of real wear; not much, but enough.

71. 1944-P JEFFERSON 5C - PCGS MS-66: $40
This is the only other "war" nickel offered this year, and also happens to be a "44-P, but this one is graded and completely problem free. The steps of Monticello are almost complete, but not enough to garner a Full Steps designation.
73. 1941-S MERCURY 10C - PCGS MS-65 (OLD HOLDER): $30
This San Francisco Mercury dime is fully gem, with incredible booming luster, but lacks a full strike based on the relatively flat bands on the reverse. It shows remnants of an old die clash, as well as a nice obverse die crack; all of that, and it’s in an older generation holder to boot. Shows the normal, small mintmark. (Note: Relisted from last year.)

74. 1945-D MERCURY 10C - PCGS MS-65: $30
This Mercury dime from the final year of the series is fully gem, and has bands on the back that couldn’t get much more separated without deserving the Full Bands designation; oh, so close!

75. 1952-D ROOSEVELT 10C - PCGS MS-65 (OLD HOLDER; TONED): $25
The obverse of this piece has a subdued tone, but the reverse has a gorgeous rainbow ring encompassing the periphery. Great piece for old slab collectors, as well as lovers of original target-style toning!

76. 1927 STANDING LIBERTY 25C - PCGS F-12 (TONED): $30
This is the only SLQ up for auction this year. Another fun color piece, showing splashes of sapphire and russet mostly on the obverse. Great, problem free example of this beautiful American type coin!

77. 1955-D WASHINGTON 25C - PCGS MS64: $35
Accurately graded 1950’s quarter, displaying average luster seen on U.S. silver coins from the time period, with a fair amount of contact marks; near gem quality. Not a bad piece if you can pick it up for a fair price.

78. 1991-S WASHINGTON 25C - NGC ULTRA CAMEO PF-69 (OLD HOLDER): $10
Another fairly graded quarter, with only the slightest areas having light tics on the obverse’s frosted devices. Very nice Washington, in a relatively older-style NGC holder.

79. 2002-S TENNESSEE STATEHOOD 25C; SILVER - NGC ULTRA CAMEO PF-69: $20
Unlike the previous listing, this proof quarter came out of a silver proof set. The lack of 100% complete frosting on the fiddle’s neck probably kept this from finding a home in a perfect Proof-70 holder.

80. 1939-S LIBERTY WALKING 50C - ANACS VG-10: $20
This Walker was slabbed in a short-lived version, slim style ANACS holder. The coin definitely has some wear, but in general, has a very nice look as a classic piece of Americana; such an aesthetically pleasing design to put on money!
81. 1954-D FRANKLIN 50C - PCGS MS-63: $40
This is one of only two graded Franklin half dollars offered this year, holdered by PCGS as Choice Brilliant Uncirculated. The bell lines are close, but not all there. The amount, size, and location of the marks on both sides are exactly right for the grade.

82. 1963-D FRANKLIN 50C - PCGS MS-64 (OLD HOLDER): $45
The other graded Franklin up for auction is this one from the last year of production. The bell lines are super close, but just not 100% considering older standards. (Today, it might actually get a FBL designation, depending on the grader!)

83. 1967 KENNEDY 50C - PCGS SPECIMEN-66 CAMEO; SMS: $25
There were no proof sets issued in 1965-67, but Special Mint Sets were meant to placate collectors’ interests in their absence. Finding SMS coins with cameos on both sides is not an easy feat for some years and denominations. This piece resembles a proof coin!

84. 2015-S KENNEDY 50C; SILVER - PCGS PR-69DCAM: $20
Technically, this is the only proof Kennedy half offered in this year’s YN Auction and it is the silver version. The tiniest nicks on the obverse prevent this one from achieving a perfect Proof-70 grade, but it is still a beautiful JFK silver proof.

85. 1903-S MORGAN SILVER DOLLAR - PCGS GENUINE; AG DETAILS – RIM DAMAGE: $50
It can be so difficult finding key and semi-key date coins in problem free condition, but sometimes that helps a collector find a more affordable specimen to add to their collection. The reverse was harshly scraped against some rough surface a long time ago. If you’re looking for an affordable 1903-S Morgan, bid on this one!

86. (1874-1876) 25C NOTE, FRACTIONAL CURRENCY - GOOD/VERY GOOD: $10
Finally for the paper money collectors, we are pleased to offer this twenty-five cent Fractional Currency note. This “Fifth Issue” (1874-1876) note is not in the greatest shape, with a couple of small edge tears, and a few holes are present.

87. 1935-E $1 SILVER CERTIFICATE - VERY GOOD/FINE: $5
This single shows plenty of evidence of use as money, with some hard creases, but there are no holes, rips, or stains. Wonderful starter specimen to include in a modest collection of older banknotes not commonly seen in circulation anymore.

88. 2013 $1 FEDERAL RESERVE NOTE, WITH OVER-INKED DIGIT IN SERIAL NUMBERS - CRISP UNCIRCULATED: $5
This FRN from Fed District 10 shows serial numbers that both have the third digit showing some extra thickness; on the number 2. This is not a very significant paper money error, but if this is your area of specialty, then this note may be right for you!
89. 1953 $2 UNITED STATES NOTE - VERY FINE: $10
This deuce with signatures of Priest and Humphrey is in average condition. The corners and edges are a bit soft, with some dark areas, but no holes or rips are anywhere on this note. Great specimen for anyone looking to just add one nice, older red seal TWO to their type collection!

90. CANCELLED CHECK - MILWAUKEE (WI) BANK OF COMMERCE, NOVEMBER 21, 1878 - VERY GOOD/FINE: $15
Here's an old check that has been cancelled, with a 2c Internal Revenue stamp affixed. This was for a bank draft (“cash”) for $153.00, which was quite a sizeable sum of money back then – it makes you wonder what these funds were needed for!

91. CANCELLED CHECK - THE NATIONAL BANK OF GARDINER, MAINE, JANUARY 1, 1927 - VERY FINE: $10
This old check was drawn for $35.00 on the very first day of 1927. This was a dividend check that someone received, probably for stocks or a similar investment; a much happier moment before the Great Depression came around a couple years later!

92. 2021 POLAND ZERO EURO SOUVENIR BANKNOTES - CRISP UNCIRCULATED: $10
Jak się masz! The only world currency available in this year’s auction are these two unusual, ZERO denomination Euro banknotes from Poland. They come in a souvenir folder, with a “Merry Christmas” theme and message on the notes. Similar but different than last year’s offering.

93. THE COIN COLLECTOR’S SURVIVAL MANUAL (7TH ED.) AND THE INSIDER’S GUIDE TO U.S. COIN VALUES (21ST ED.) SCOTT A. TRAVERS - TWO BOOKS - SOFTCOVERS, NEW: $30
For those of you just starting out, these two books are great reads to help understand how many of the things work in this hobby, as well as the numismatic marketplace. Education is key to understanding and doing well with coins and paper money!

94. LITTLE BOOK OF COLLECTIBLE EISENHOWER DOLLARS BY THE IKE GROUP - NEW: $25
If you like Ike, or at least collecting Ike Dollars, this book is a must have! Plenty of information to read about some lesser-known Eisenhower dollar die varieties, to help guide your cherry picking efforts when faced with a pile of these coins to sort through.

95. A GUIDE BOOK OF UNITED STATES TYPE COINS (THE OFFICIAL RED BOOK) BY Q. DAVID BOWERS (SOFTCOVER; NEW): $30
This book credited to Q.D.B. is helpful if you collect United States coins. It is an essential guide for anyone seeking to build a worthwhile collection of US Type coins; just one nice example of each one issued by the country. It is much easier to win and read this book than it is to build the full set including gold (but don’t ever let that stop you!)

96. A GUIDE BOOK OF UNITED STATES COINS, 2018; NGC 30TH ANNIVERSARY CELEBRATION EDITION (RED BOOK) - NEW: $40
Whitman Publishing issued a limited edition version of the 2018 Red Book to celebrate NGC’s 30th anniversary, with gold foil printing on the front and back covers to set it apart from the regular 71st edition copies. An uncommon buying opportunity for the collector of fine numismatic literature!

97. A GUIDE BOOK OF UNITED STATES COINS - MEGA RED, 3RD EDITION (THE OFFICIAL RED BOOK) BY Q. DAVID BOWERS (SOFTCOVER; NEW): $50
So if the first two Red Book offerings weren’t big enough for you, hopefully you’ll be bidding on this “Mega Red”. This is the 3rd edition, highlighting the different five-cent nickel series issued since 1866, though it also goes into great depth on many other coins, including information about some great die varieties out there waiting to be found by you!
98. WHITMAN DELUXE ALBUM #9417 - LIBERTY STANDING QUARTERS - NEW OLD STOCK/UNUSED: $15
Whitman deluxe albums are a beautiful way to house (and sometimes unwittingly, tone) your collection. If you're lucky enough to have a collection of the SLQ's, this would be a wonderful way to store and view them without risking damage.

99. WHITMAN DELUXE ALBUM #9150 - SILVER ROUNDS - NEW/UNUSED: $15
Looking for a beautiful way to house your collection of all of those 1-ounce silver rounds older people keep giving you, in the desperate hopes it'll turn you into a life-long collector? Look no further than this deluxe Whitman album! Brand new, in shrink wrap.

100. U.S. MINT’S “THE FORMATION OF THE UNION” ARCHIVAL SET - NEW: $10
In 2001 The Mint issued an educational folio containing the first 13 issues from the 50 States Quarters Program, from both Philadelphia and Denver; 26 uncirculated coins total. The lucky winner can open and enjoy it, or leave it closed (and hopefully still enjoy it that way too!)

101-110. GRAB BAGS!! $25
For those of you who did not win ANY of the previous 100 lots, this is your last chance to get something in this year's auction! There are TEN grab bags we've put together, chock full o' numismatic (and exonumismatic) goodies; plenty of fun stuff to sort through for younger collectors, but you won't know what's in 'em unless you win one of these! The grab bags are popular and are different every year based on items received in donations. They will be auctioned off, one at a time, starting with Lot #101, concluding with Lot #110.

(Limit only ONE grab bag per any YN who has NOT won anything else in this auction - let's keep it fun and fair, so we can continue including these lots every year for the newer YNs! We want to be sure that as many of our YNs as possible walk away with something - we sincerely thank our older, experienced YNs for understanding!)
