

EXPAND YOUR KNOWLEDGE THROUGH ANA SEMINARS

COIN GRADING, PROBLEM COINS & CONSERVATION (2-day Seminar)

The biggest mistake collectors and dealers make is buying coins they shouldn't have purchased in the first place —coins that have grade, surface or conservation issues that they didn't see. This 2-day seminar will help students avoid costly mistakes by developing their grading skills and teaching them to spot a wide variety of surface problems, enhancements, alterations and conservation issues that can adversely affect a coin's grade. The material covered is comprehensive and suitable for novice and experienced collectors. The seminar uses images, discussion and hands on examination of hundreds of certified graded and details graded coins in the ANA's Grading Sets.

Instructor: Brian Silliman, professional numismatist, Brian Silliman Rare Coins, and former NGC grader/conservator and ANA authenticator/conservator.
