- **Fundamentals of Grading U.S. Coins**

Instructors: Rod Gillis, ANA education director; and Sam Gelberd, ANA numismatic educator.

Time: 9 a.m. to 5 p.m. (each day)

Knowledge of coin grading not only helps collectors be more confident on the bourse floor, but helps take the worry out of numismatic purchases. The two-day seminar covers many topics and emphasizes the fundamental principles of grading circulated U.S. coins, including the history and evolution of grading standards, analysis of a coin's focal points, technical and market grading, how to determine initial signs of wear and evaluating surface marks, strike, luster and eye appeal.

- **Detecting Counterfeit U.S. Gold Coinage**

Instructor: Brian Silliman, professional numismatist, and former NGC grader/conserver

Time: 9 a.m. to 5 p.m. (each day)

Many collectors and dealers have unwittingly bought and sold deceptive counterfeits of U.S. gold coins. It's a humbling and expensive mistake to make. But detecting counterfeit U.S. gold coins is relatively easy to learn. Through digital presentation and extensive hands on coin exercises, students will learn the genuine characteristics and counterfeit diagnostics needed to authenticate most U.S. gold coins.
