Look Closely at Your Money During National Coin Week

The 100th anniversary of National Coin Week, April 21-27, 2024, emphasizes "money is history you can hold in your hands"

Every coin, every piece of paper money in your pocket, wallet, or purse has a story to tell about history, and the stories will be celebrated by collectors nationwide during the 100th anniversary of National Coin Week (NationalCoinWeek.org), April 21-27, 2024. You might also find something valuable in your pocket change.

"To encourage everyone to closely look at their money, during National Coin Week some dealers and collectors around the country will be deliberately placing into circulation older coins with collector value. Check your change. In addition to appreciating the significance of the coins' designs, you might find something valuable," said Kim Kiick, American Numismatic Association (money.org) executive director.

"Designs on U.S. coins and paper money commemorate notable people, events, accomplishments, and shared principles. This year's theme, 'A Hobby for a Changing World – 100 Years and Counting,' focuses on how coinage and money have evolved and changed to embrace varying cultural values from early civilization to today," explained Thomas J. Uram of Pennsylvania, president of the American Numismatic Association.

"Money is history you can hold in your hands. Each coin and banknote ever produced has a story to tell, from the first ancient coins struck 2,600 years ago to coins and currency made today around the world," explained Uram. "There's no coin shortage or cashless society during National Coin Week."

Over the centuries, the designs, denominations and metallic content of coins can reveal a great deal about civilizations, past and present, such as famous and not-so-famous political and historical figures, important events, and landmarks.

Observed every third week of April, National Coin Week was established a century ago to attract the general public to the enjoyable hobby of coin collecting. For additional information, visit NationalCoinWeek.org.

The American Numismatic Association is a congressionally chartered, nonprofit educational organization dedicated to encouraging the study and collection of coins and related items. The ANA helps its members and the public discover and explore the world of money through its vast array of educational and outreach programs, to include its museum, library, publications, conventions and webinars. For more information, call 719-632-2646 or visit money.org.
